

BALI CONCEPT  
INTERIOR & FURNITURE DESIGN

**The more you connect  
with nature, the more  
creative you will become.**

We have watched Nature for years, immersed in its mysteries. When the Earth called us, we went round the world. Thus we came face to face with the various materials and with their limitless use possibilities. We learnt to get to know and understand them and, finally, to shape them. However it wasn't enough to translate them – we wanted to interpret them too. This is known as contamination: materials come together and merge and are turned into unique items. In our hands they become functional design objects. Functional because Nature already has everything needed for the good life.

## COLLECTION SAMANTHA

OUTDOOR

**Redefining outdoor living.**

Designed for true relaxation, DAB offers a deep lounge experience with carefully balanced ergonomics. The soft, welcoming seating invites slow living—from early morning light to sunset gatherings.

Comfort is not an option, but the essence of the collection.
